

North Sea Link - Geophysical Survey

Last updated: 14 Apr 2026 - 13:43:47

Type of notice: Activity

Sector: Subsea cables

Category: Geophysical

Summary

Please be advised that on behalf of National Grid Ventures, Fugro is planning to conduct a geophysical survey in the North Sea from the nearshore limit north of Blyth,

(55° 09.5'N 001° 28.9' W) and extending offshore to the UK / Norway border.

The survey works shall be conducted by the Fugro Frontier utilising multibeam echosounder and towed sidescan sonar.

Description

The survey will involve the full coverage of dedicated survey lines with a geophysical survey system multibeam echo sounder and towed Sidescan Sonar.

As the Fugro Frontier will be line keeping, the vessel may require large turning circles and will be restricted in their ability to manoeuvre.

All vessels operating within this area are requested to keep their distance, maintaining at least the 500m safety zone around the survey vessel, and pass at minimum speed to reduce vessel wash.

A continuous listening watch will be conducted on VHF Channel 16.

Locations

Title: North Sea Link
